# Introduction

Thank you for purchasing this report. By doing so you have made a very smart decision for your business. One of the biggest tips any internet marketer can give you is to take action. By buying this product and reading it, you have taken your first step to internet marketing success, because this step by step guide will show you a proven system of how you can harness the power of facebook to make good money online.

Before I get into the meat of this guide please note that in this blueprint I will cover everything, step-by-step without any fluff. I will teach you how to profit from Facebook Fanpages and I will cover everything. I will show you the right offer to promote and how to get visitors clicking your URL link.

I have been using Fanpages a lot to promote products and services and I even help small business owners to monetise their Facebook Fanpages.

In Facebook Fanpage Blueprint I will reveal to you the complete blueprint formula I use to make money from Fanpages. I will have lots of case studies and real live examples so you can see for yourself on how it is done rather than “what you need to do”.

With all my products I like to cut the fluff out and focus on getting straight to the point and start from the word go.

# Social Media Marketing – The simple explanation

Social media marketing used to be divided into two factions. Social networking sites where you could connect with others, become perceived as an expert in your niche, build your own brand, create a great customized profile, add 'friends', join or create 'Groups', comment, message, add images, videos, and other media, etc., and link building sites - where you could do your content publishing - put your blog posts, articles, photos, videos, and people sometimes had the option of voting your content up or down.

There wasn't a lot of 'social networking' between people (at least not at first) on the link building sites, and the main attraction of these kinds of sites was quality content. Also, in a social networking site, you could make a rich, full profile but in a link building site, you didn't have a big opportunity to customize your profile.

Until now. Now, you can have a Facebook Fan Page. Facebook is included in the "social networking" sites I talked about above. But Fan Pages include the elements of a "link building" social media site. All in one package. And, you can have as many Fan Pages as you want, in whatever niche you want.

# Why Facebook?

According to Mashable, Facebook will reach 500 Million active users by the end of July 2010. On average, at least half of those users log into Facebook on any given day. The average amount of 'friends' a single user has is 130 and, more astonishing, users visit Facebook for over 500 BILLION minutes per MONTH. That should answer the question, "Why Facebook?"

## Groups or fan pages?

Well, this is really a no brainer, but it's good to have an explanation of the differences, because each has its own functions.

The best description I've seen is from Mashable:

"Groups are great for organizing on a personal level and for smaller scale interaction around a cause. Pages are better for brands, businesses, bands, movies, or celebrities who want to interact with their fans or customers without having them connected to a personal account, and have a need to exceed Facebook's 5,000 friend cap."

# So, What exactly are Facebook's Fan pages?

According to the Facebook Pages Manual - which you can download and use for guidance in setting up your Fan Pages - Pages were added to the Facebook milieu so that businesses, organizations, bands, and celebrities could keep in touch with their fans in "an official, public manner."

For us, the key word here is "businesses" because when we use a Fan Page for a niche specific keyword/product, that is our business.

With a tightly keyword focused Fan Page, you will be indexed fast by the search engines. Your individual fan page will let you be recognized as an expert in your niche with exposure to maybe thousands of people each day, build your list, generate traffic to your blogs or websites, and much, much more.

# SEO for Facebook Fan Pages

There really isn't much difference in the techniques you use for search engine optimization of your Facebook Fan Page than you would use for your blog, or articles, or a website - anything you want to be noticed and indexed for a specific keyword by the search engines. Here are some things to keep in mind when setting up your Fan Page:

1. Every Fan Page you create should have a tightly focused Theme and, if you develop several Facebook Fan Pages, do not promote one page on another page. Keep them totally separate.
2. Make sure you pick a niche that is active and has a lot of people searching for whatever you want to promote on your Fan Page. Look for the hot trends in Click Bank, Yahoo, Amazon.com, for starters. Search out magazines at your favorite newsstand. Go through the magazines in the niche you are exploring and look for what's selling. You can believe that if you find a magazine for your niche, that it is a popular niche with your potential customers.
3. Do explicit market research with your favorite market research tool (I like Market Samurai and the keyword research portion is FREE.) This is a very important step. If you don't get it right, you won't get the traffic from the search engines. Take your time; give it a lot of thought.
4. Go to Google Keyword Tool and enter your main theme keyword and look for additional keywords you can use that have a lot of searches each month. In Google (or Yahoo), you can put in a keyword in quotes (phrase match), to see how much competition there is for pages that use that keyword. Compare the Global Searches Per Month number from the Google Keyword Tool with the number returned by Google (actually, Yahoo's numbers tend to be more

accurate), and look for keywords for a high number of monthly searches and a low number of competing websites. This will make it easy for you to rank for that particular keyword.

5. Once you have determined your main theme keyword and additional keywords you would like to target, use the main theme keyword in your Fan Page Title and in your Profile.

6. Talk about your Face Page on the Social Networking sites. The most popular ones, aside from Facebook, are hi5, Ning, Bebo, Orkut, Linkedin, Friendster, and MySpace. Use Twitter and Foursquare for microblogging. Do some quality content publishing on various web2.0 sites, such as HubPages, Squidoo, tumblr, Scribd, and ezinearticles. Always, link back to your Facebook Fan Page.

7. In the profiles you create for the different social networking sites, send a link back to your Facebook Fan Page URL.

8. Everybody knows that article marketing is the best way to get your blogs and pages indexed by the search engines quickly. They are great authority sites and the search engines love them.

Write several articles, making sure you use the keyword you want to target both in the article title, description, and the content of the article. In the resource box at the end of the article, send the viewers back to your Fan Page or, if you have an opt in page on your Fan Page that offers something free that is relevant to the article, send your readers there. Not only will you get indexed quickly, your will begin to build back links to your Fan Page.

## Here are some top 15 article directories rated by their Alexa Rating:

URL ----- Alexa Rating ----- Google Page rank

* ezinearticles.com	----- 126	----- 6
* articlesbase.com	----- 354	----- 6
* suite101.com	----- 659	----- 7
* buzzle.com	----- 759	----- 6
* articlesnatch.com	----- 1,467	----- 5
* helium.com	----- 1,527	----- 6
* goarticles.com	----- 1,710	----- 4
* articlealley.com	----- 2,200	----- 5
* articledashboard.com	--- 2,833	----- 5
* ideamarketers.com	----- 3,369	----- 5
* bukisa.com	-----4,728	-----5
* amazines.com	-----4,759	-----3
* articlecity.com	-----5,453	-----5
* artlcierich.com	-----5,827	-----3
* isnare.com	-----5,913	-----6

Some of the article directories are "no follow" but that doesn't matter because, if your articles are well written, they will be picked up by other publishers and published on their blogs, in their newsletters, on their websites, etc., giving your article and link a lot of exposure.

9. Visit blogs and forums that are relevant to your Fan Page niche, post a useful, helpful comment, and a link back to your Facebook Fan Page.

Those are just some of the ways you can optimize your Facebook Fan Page. Just remember - use your keywords as much as possible and update often to keep your Fan Page "new and interesting", and the search engines will love you!

# Time to create your first fan page.

Since the introduction of Fanpages Facebook has changed the way we market our business online. Facebook Fanpages allow you to market to a certain audience, anywhere across the world.

In the first section of this guide I am going to focus on creating your first fanpage. Now to make it easier I am going to be focusing on one specific fanpage throughout this guide. I will make a Fanpage from scratch and show you exactly how I monetise it with CPA/Clickbank offers.

**I will also show you how to make money by “renting out” Fanpage status updates to people.**

Now before you create your first Fanpage make sure you do a bit of **research**. In the added report with this package, you will find some great ideas on what the buzz words are in the fan page world.

In order to create your fanpage simply head over to  
<http://www.facebook.com/pages/create.php?>

Now here we can see we are given two options.

The first option is an “Official Page” and the second option is a “Community Page”.

If you are going to be creating a fanpage for a business or a brand then you should be creating an “Official Page”.

However, if you are going to be targeting a niche market then I would create a “community page”.

So therefore, for the purposes of this example I am going to create a fanpage on “Short Emo Hairstyles”.

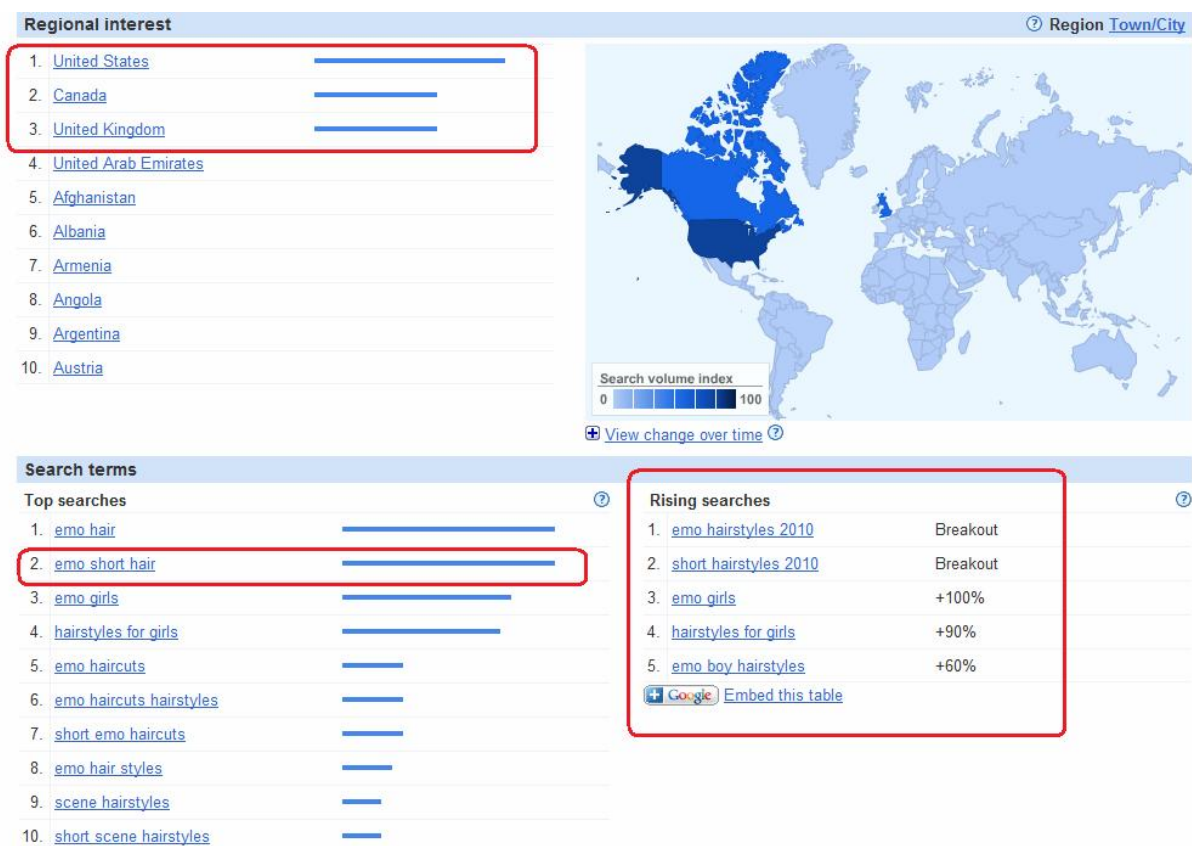

Now notice the title of my fanpage is going to be something different. It contains the main keyword but to stand out I am going to call it “**I think Short Emo Hairstyles are Sexy!**”

Now according to [Google Keyword Tool](#) our keyword generates a lot of searches.

As you can see the keyword “emo short hairstyles” generates just over 40,500 searches per month.

This is a lot of searches for this keyword.

Now I am going to click the “spy glass” link to see what it shows on [Google Insights](#).

We can see that this niche generates a lot of interest from countries such as UK, USA and Canada. This is useful because when it comes to CPA offers we can focus on promoting offers to this market.

Also notice that the top “search terms” are “emo short hair” and “short emo haircuts”.

Now I am going to head over to [Wordtracker](#) and get an estimation on how many searches there are for this keyword.

<b>emo hairstyles</b> 2,558 searches (top 100 only)		
	<b>Keyword</b>	<b>Searches (?)</b>
1	punk emo hairstyles ( <a href="#">search</a> )	724
2	emo hairstyles for girls ( <a href="#">search</a> )	484
3	emo hairstyles ( <a href="#">search</a> )	457
4	emo hairstyles for guys ( <a href="#">search</a> )	239
5	short emo hairstyles ( <a href="#">search</a> )	88
6	emo hairstyles for men ( <a href="#">search</a> )	54
7	emo girl hairstyles ( <a href="#">search</a> )	53
8	long emo hairstyles ( <a href="#">search</a> )	34
9	pictures of punk emo hairstyles ( <a href="#">search</a> )	28
10	emo guy hairstyles ( <a href="#">search</a> )	19
11	short emo hairstyles for girls ( <a href="#">search</a> )	19
12	emo girls hairstyles ( <a href="#">search</a> )	16

These are the results from Wordtracker Gtrends. We can see that there are a lot of searches for the keyword “short emo hairstyles” and other related keywords to this niche.

The next thing I am going to do is head over to Google and see how much competition there is for this keyword – “short emo hairstyles”.

<input type="checkbox"/>	"short emo hair styles"			2,900
<input type="checkbox"/>	[short emo hair styles]			1,600
<input type="checkbox"/>	short emo hair styles			8,100
<input type="checkbox"/>	[short emo haircut]			880
<input type="checkbox"/>	"short emo haircut"			1,300
<input type="checkbox"/>	short emo haircut			3,600
<input type="checkbox"/>	short emo haircuts			18,100
<input type="checkbox"/>	[short emo haircuts]			3,600
<input type="checkbox"/>	"short emo haircuts"			8,100
<input type="checkbox"/>	"short emo hairstyles"			18,100
<input type="checkbox"/>	short emo hairstyles			40,500

Now we can see that the keyword in quotes (According to Google Keyword tool) there are just over 18,100 searches.

Now if we head over to Google and type in "short emo hairstyles" in QUOTES we can see that there are just over 78,000 results (this is excellent news).

Now this is good news because competition is VERY LOW for this keyword.

Now I am going to head over to [Instant Domain Search](#) to see if I can snap up a nice keyword rich domain for this.

As you can see there are two good keyword rich domains that are available.

I am going to go ahead and register the .org domain name.

So I am going to head over to [Namecheap](#) and register the .org.

(.org domain names are just as well ranked on Google as .coms).

Now that I have registered the domain I am going to link it to my webhost and create a simple **Traffic Hub**.

A traffic hub is a simple portal (one page) which will act like a landing page to your Fanpage.

Now the first thing I am going to do is install Wordpress on this domain name.

Wordpress can easily be installed using your host through “one click” feature via the Fantastico link.

I am not going to teach you how to install Wordpress as its pretty easy.

I just like getting straight to the point.

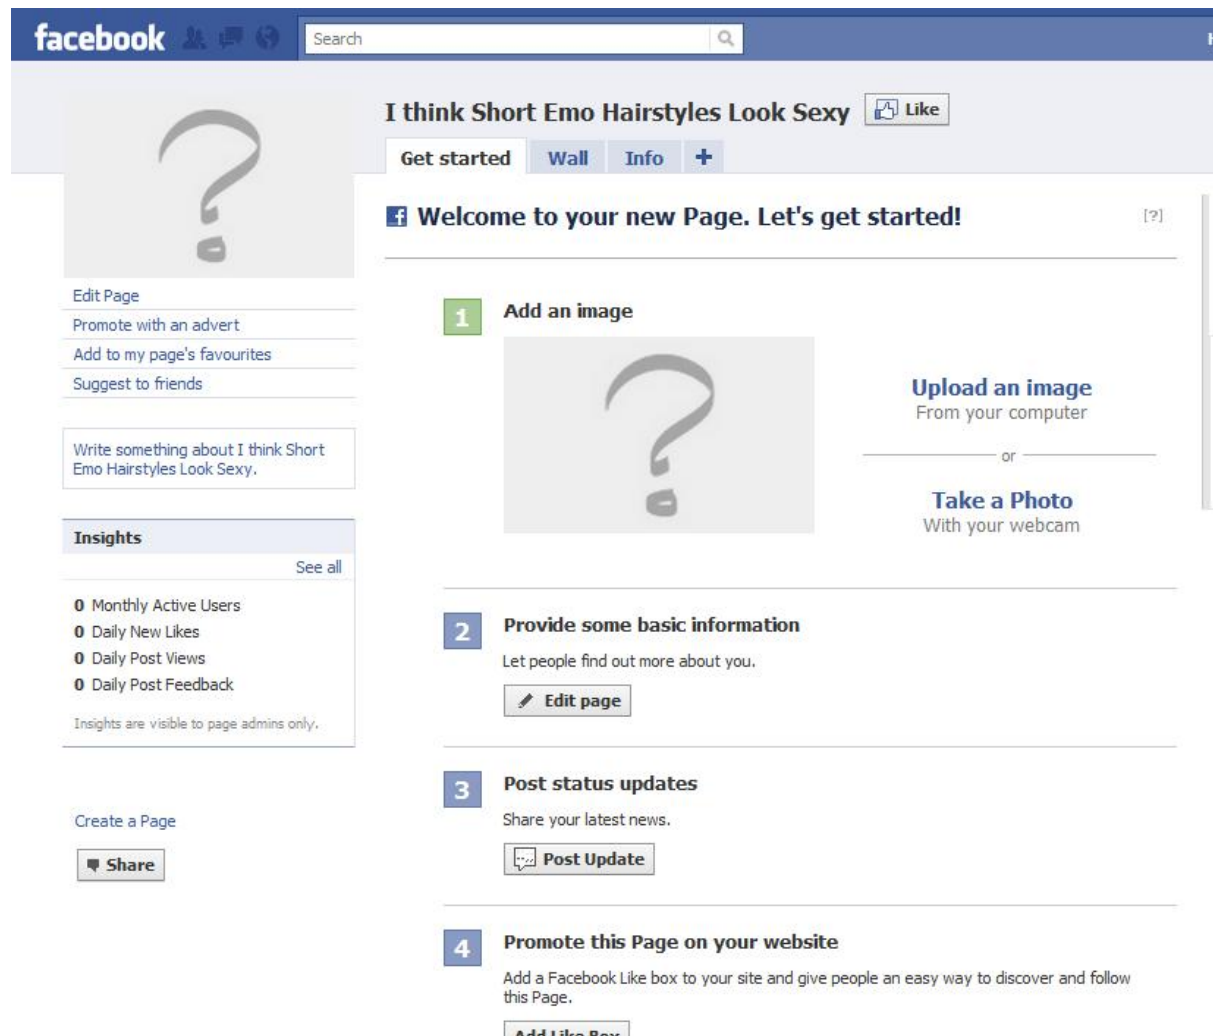

Once you have installed your Wordpress website it should end up look something like this (see below).

Now at this stage what you need to do is simply add a Facebook “liked” button so that links to our Facebook fanpage.

Now let's go back to our Fanpage firstly and create it before we link it to our website.

Now once you enter the title of your Fanpage (in this case "I think short Emo Hairstyles Look Sexy" you should see a screen that looks like this.

Now this is the part where you need to edit your Fanpage and fill in the details.

I would start off by including an image that relates to this.

Now when it comes to an image please be careful. Do not use an offensive image or an image that contains the URL of a website. Facebook is strict on images.

However, I have had no problems in using images from Google Images.

Here is the fanpage updated now with an image.

The screenshot shows a Facebook fanpage interface. At the top, the page name is "I think Short Emo Hairstyles Look Sexy" with a "Like" button. Below the name are tabs for "Get started", "Wall", "Info", "Photos", "Discussions", and a "+" icon. A welcome message says "Welcome to your new Page. Let's get started!". The main content area has four numbered steps: 1. "Post status updates" with a "Post Update" button; 2. "Promote this Page on your website" with an "Add Like Box" button; 3. "Set up your mobile phone" with options to "Send Mobile Email" and "Send text messages"; 4. "Send status updates to your Twitter followers" with a "Connect to Twitter" button. On the left sidebar, there is a profile picture of a person with short dark hair, a link to "Edit Page", and a section titled "Information" with a description: "Welcome to a special Fanpage on SHORT EMO HAIRSTYLES. If you are a FAN of Short Emo Hairstyles please share your pictures!". Below this is an "Insights" section showing "Monthly Active Users", "Daily New Likes", "Daily Post Views", and "Daily Post Feedback". On the right sidebar, there is a "Get more connections" section and a small preview of the page with the text "Your text here" and "Imran Naseem likes this."

Now the next thing to do is add basic information about your fanpage. Here as you can see I have added information and have invited people to “share their pictures of emo hairstyles”.

Now as for a URL at this stage I am going to leave it blank.

I will talk more about including a URL, later on in this guide.

For now let's focus on creating the fanpage.

Now the next thing you need to do is add the “liked page” on our keyword rich website.

As you can see there is an option on our fanpage that allows us to do this.

**2** **Promote this Page on your website**

Add a Facebook Like box to your site and give people an easy way to discover and follow this Page.

As you can see this section allows you to customise the “Like box” button before you display it on your website. Change the Facebook Page ID code to the unique number you have for your Fanpage.

So for example, the URL of my “Short Emo Hairstyle” fanpage is

<http://www.facebook.com/#!/pages/I-think-Short-Emo-Hairstyles-Look-Sexy/125224834190970?ref=ts>

In this case the unique number is the one highlighted in RED.

Once you have finished customising it simply click the “Get Code” button.

Next you should see two options – Iframe and XFBML. You can use either one.

Once you have selected your code click “Done” and simply paste the code onto your website.

I chose to paste it after my post on my website (see below).

Now at this stage there are no fans joined to this fanpage.

As you can see I have made sure the title of my post contains the main keyword and also the short description after the post.

You might want to use a longer description. However, this is just an example.

Now going back to our fanpage there is also an option to link our fanpage to Twitter so your followers can see your updates.

#### Send status updates to your Twitter followers

Reach more people by exporting your status updates to your Twitter account.

Connect to Twitter

Now before we you start monetising your fanpage in the next section I am going to talk about how to direct traffic to our Keyword rich Wordpress website so that you will start appearing on the first page of Google.

This is important before anything else as this website will act as a PORTAL Traffic Hub for your fanpage and it will also direct people from the search engines to your fanpage.

# Directing Traffic to our Traffic Hub

The next thing to do is direct traffic to our traffic hub website.

Now at this stage having a keyword rich domain is a good idea because when it comes to outsourcing your SEO then you will have an excellent chance of ranking on the first page.

When it comes to driving traffic to my traffic hub website I use **Article Marketing**. Article marketing directories such as [Ezine Articles](#) and [Article Base](#) are my preferred choices.

Article directory sites are always seen as authority sites and people tend to look at articles as authority articles.

Now going back to our traffic hub website we can see that our main keyword is “Short Emo hairstyles”.

If I wrote an article on “short emo hairstyles” then I would make sure that I would do the following.

**Keyword in Title** – Make sure keyword is in the title of your article (use a long tailed keyword if you have to).

**Keyword Twice** in the first paragraph

Keyword once in the article

Keyword twice in the last paragraph or 2.

You can easily outsource your articles by using [Elance](#) or [Odesk](#).

A backlink service will also be a good idea because it would increase your chances of getting your traffic hub portal on the first page.

However, I do not want to bore you on traffic generation methods on this section because this course is about fanpages and I am going to mainly focus on fanpage traffic.

The purpose of this section was to show you how you create a Traffic Hub portal for your Facebook fanpage so you get autopilot traffic from the search engines.

In the next section I am going to go through several detailed traffic generation techniques to direct traffic to my fanpage.

# How to drive traffic to your fan pages

When most people create a fanpage they are often left to wonder on how to drive traffic to their fanpage. In this section I am going to show you how I am going to drive traffic to my brand new fanpage on “short emo hairstyles”.

So just to remind you here is a screenshot of my Fanpage (Before the traffic generation techniques were applied).

The only “fan” at the moment is me.

Now I am going to start directing traffic to my fanpage.

My favourite traffic generation method is to head over to [Fiverr.com](http://Fiverr.com) and simply pay for “status updates”.

So let’s go to Fiverr and see what services we can use to buy status updates from people.

The first thing you need to do is click the “Social Marketing” category on Fiverr and see what kind of services people are offering in relation to Facebook Fanpages.

We can also see that this guy has excellent feedback from people.

In relation to my fanpage – which is about “emo short hairstyles” it is important you find the right target market. So for example, this guy is a “lead singer” and there are a lot of people on his list who are into music and are into “emo hairstyles” – perfect!

The next thing to do is contact this guy in regards to the GIG and place and order.

Now once you have ordered a GIG order another GIG - In fact if you are going to be spending \$5.00 on each GIG then I would at least contact 10 Gig owners (spend \$50.00) in getting lots of traffic to your Fanpage.

Here is another [Gig](#) I am going to use as this has excellent feedback.

**wpbuzz: I will invite all my facebook friends (5000+) to join your group/fanpage up to 5 invites for \$5**

thank you so much ...Already it has increase by about 100 so looking for more during the weekend.

Gigs on the “featured section” on Fiverr tend to generate a lot of views and also have sellers with a positive feedback.

Here is [another Gig](#) that is bound to get you a lot of traffic for just \$5.00.

This person will invite 15,000 of her friends to your fanpage for just \$5.00.

Once you have ordered several Gigs you will simply need to wait whilst traffic to your fanpage increases.

Usually Fiverr members will update you on the status of your order.

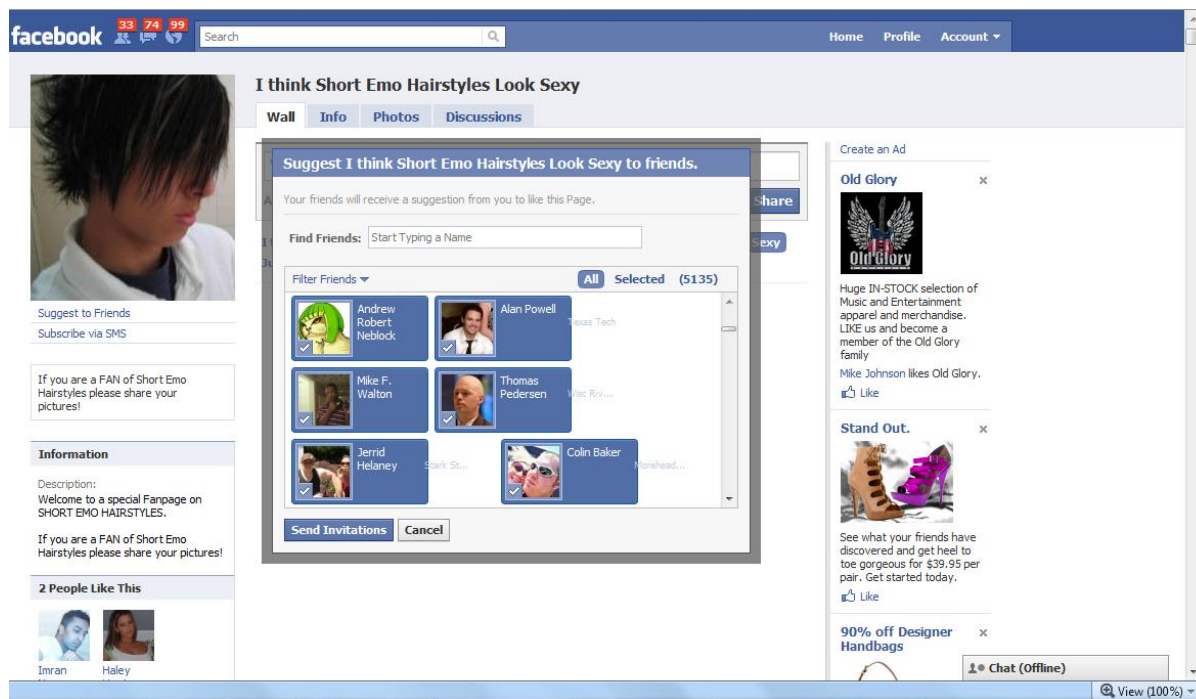

Here is an update on our “Emo Hairstyle Fanpage” from two sellers.

This seller has provided a screenshot of the Gig I just ordered.

As you can see this seller is also charging \$30 for 100k people if I buy the Gig 6 times. This is insane and this can truly make your Fanpage go “viral”.

Let’s take a look at the “proof” shall we?

This is the screenshot that I was supplied by this seller. As you can see they have invited ALL of their 5000+ people onto my Fanpage 😊

I am a happy bunny now because this proof has given me confidence!

Now it has just been 10 minutes and traffic to my Fanpage has already started to increase.

Here is a screenshot of my fanpage right now (7pm UK British Time).

As you can see “20 people have liked” this already, in such a short space of time.

Fiverr is an excellent resource to buy Fanpage invites and increase traffic to your Fanpage in a short space of time.

The reason I like Fiverr so much is because you can find quality sellers who will do the job without a fuss.

There are also other ways to increase traffic to your Fanpage.

# Other Ways To drive traffic to your pages

You can use the Facebook Fan Page application called Fan Appz to set up Top 5 Lists, Polls, and Quizzes and there is also a Discussion feature application you can use to ask a question to get a discussion going.

You can then "promote" these items on your blog or website, or on Twitter to get more people involved in the discussion or whatever you have chosen.

Go to Yahoo, for example, and look at their "Trending Now" list and find something interesting to talk about. On today's "Trending Now" list, Number 9 is "Bed Bugs." You could make a Top 5 list on where are the best (worst?) places to find bed bugs, or take a poll on people's experiences with bed bugs, or write a quiz on what to do if you are confronted with bed bugs (sprinkle a few drops of Lavender Essential Oil on the bed and they will vacate!), or just start a Discussion about bed bugs in general. Then, put a comment on your blog and send out tweets telling people about your Top5 List! Many Facebook users check out the Top5 lists each day and if yours are unique and interesting, you should be able to generate a lot of traffic from them.

Your Fans will respond and their friends will see their responses and perhaps get involved, maybe even becoming a fan of your page.

Keep your Fan Page active and interesting. Give people something to look forward to frequently.

Another thing you can do is add a "Welcome" page for the first time someone visits your page. You can set it up however you want to welcome them, point out features of your Page, explain your niche and what you are trying to accomplish, and telling them how glad you are that they dropped by. You can set it up so that the next time they visit your Fan Page, the Welcome Page doesn't appear.

If you know of another POPULAR marketer who is in the same niche as you, you can search their profile and "friend" their friends. Most people will "friend" you back. When they do, send them a message thanking them and inviting them to visit your Fan Page.

If your Fan Page is getting a decent amount of traffic, you could also do a feature on that POPULAR Marketer, let the marketer know you featured them on your Fan Page, and they will usually talk about it on their blog and/or Fan Page, sending their fans and friends to your Fan Page. Just remember to be sincere.

Don't forget to put a Facebook Fan Page BADGE on your blog. People can just click on it and go right to your Fan Page. This is a great way to let them know you have a Fan Page on the same topic as your blog.

# Driving traffic from your fan page to your blog

There are so many ways you can use your Fan Pages to get people to visit your blog. By using the Application "Social RSS" you can have your blog posts appear on your Fan Page. It will just be an excerpt of the post and below the excerpt is a link that says 'Read More Stories' and another that says 'Subscribe to stories from this page.' So, not only do they have to click and go to your blog to read the rest of the blog post, they have two other chances to visit your blog or subscribe to your blog "stories."

Write updates on your Fan Page that mention free things you are giving away on your blog, or a contest you are having. Give them the link to get to the correct page or post on your blog.

Offer a free report or eBook if they go to your site and fill out a poll you are taking. Make sure it is something worthwhile and on topic for the niche you are promoting.

Mention that if they go to your blog and buy a product you are selling on both your Fan Page and your blog, that there is a special discount, or coupon, they can avail themselves of if they click over to your blog and order from there instead of the Fan Page. They will appreciate the heads up.

# Applications for your fan pages

There are hundred of Applications available for Facebook Fan Pages. Some of the ones you may want to have (they all have good instructions and descriptions) include:

1. **NetworkedBlogs** - Network your blog with Facebook's huge blogger community.
2. **Sweepstakes** - Within minutes you can generate and launch a branded sweepstake. Your Fans enter the sweepstakes and the application picks a winner at random.
3. **Social RSS** - This app lets you add your RSS feed to a boxes tab, a dedicated tab, or your Fan Page wall and automatically updates.
4. **Fan Appz** - Great suite of marketing apps for social media to help Facebook Fan Pages connect with, monetize, and grow their number of Fans. Uses Top5Lists, Promotions, Quizzes, Polls, and virtual gifts, among other things.
5. **Social Tweet** - This application lets you tweet directly from Facebook.
6. **Show & Sell** - Set up a visual mini-store.
7. **Promotions** - This application lets you offer special promotions to your fans.
8. **Discussion Boards** - start a discussion and see where it takes you. This can be used like a forum for your fans.
9. **Notes** - This is a great application that lets you write notes back and forth with your fans.
10. **Photos** - This application is great for putting images or photo albums on your fan page and giving it more visual appeal.
11. **Videos** - Videos are very important now. This app lets you put videos on your fan page.

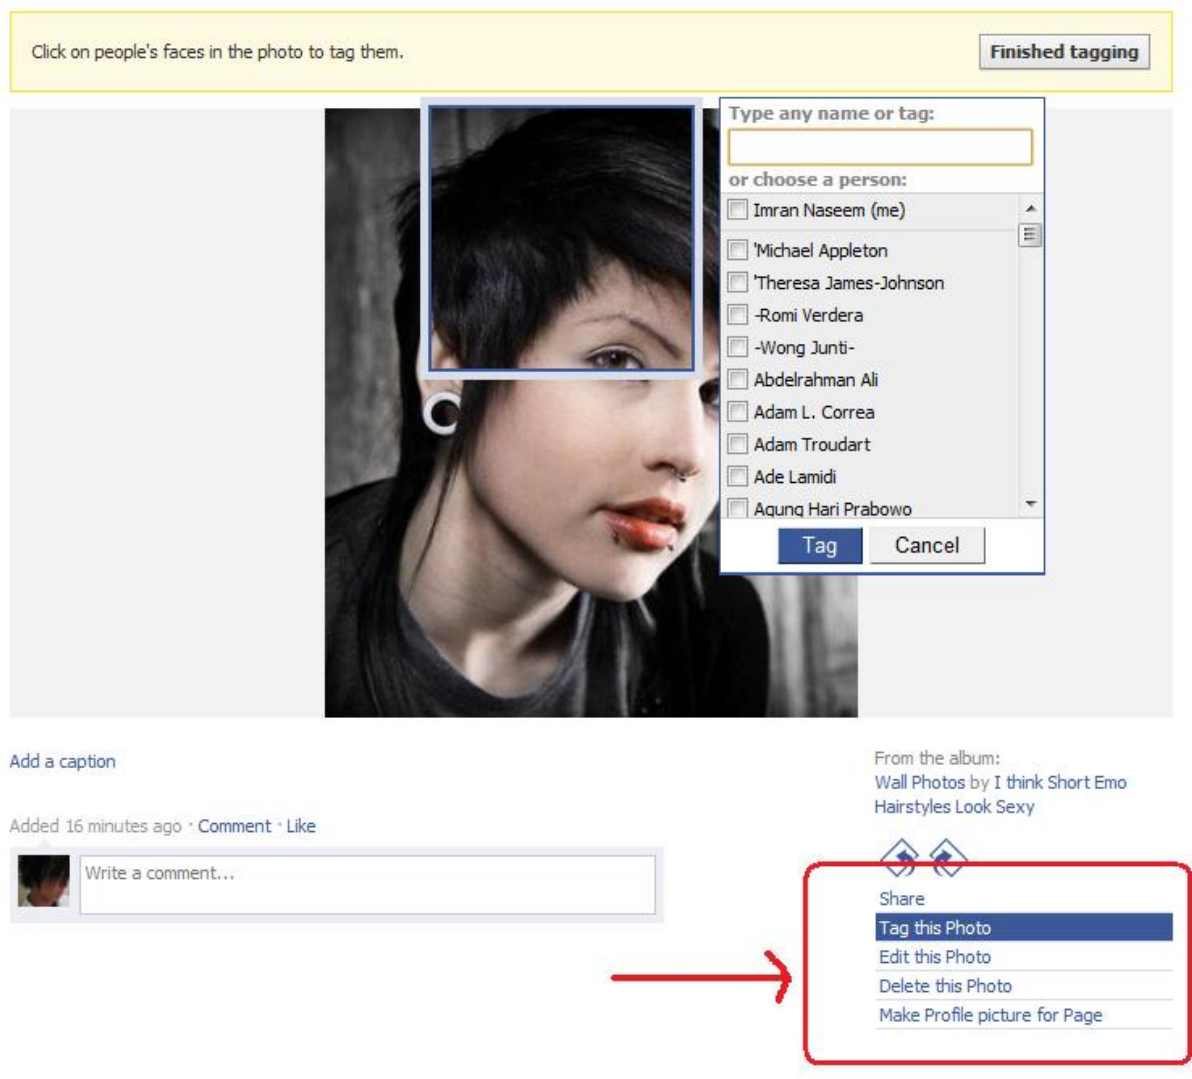

- 12. **Events** - schedule special events for your fans to attend
- 13. **Surveys** - take surveys to learn more about your fans
- 12. **Coupon** - special offers and coupons for your fans
- 13. **My Fan Site** lets you use custom html and css to design a landing page for your fans
- 14. **Mobile** - lets you view the content your fans upload with Facebook Mobile, gives you a phone book view of your fans, and lets you subscribe to their mobile content

Go through the list and read the descriptions and then pick the ones most applicable to your niche and your "fans."

# Tagging and @ Tagging Feature

One way of increasing lots of fans to your Fanpage is the process known as Facebook “tagging”.

This involves uploading a photo or an image and then simply “tagging people”. Now I know when I have been “Tagged” on Facebook I always have to see who tagged me. Curious people are always going to be “curious” about something.

Now you might want to use a creative image. For example, an image that contains text and a URL link to another website perhaps?

By doing this you will get a lot of people viewing the image.

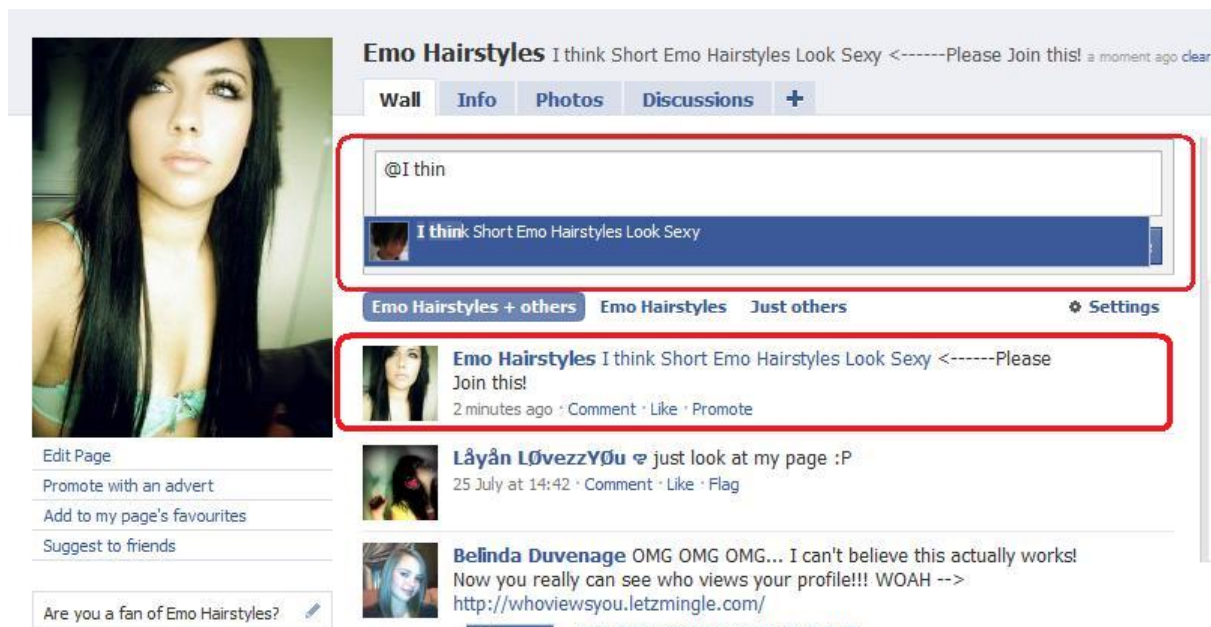

For example, if you had an Iphone 4 landing page CPA offer then by using “tagging” people will end up joining the fanpage and clicking on your URL link.

(More on Landing pages later).

### **The @ tagging feature**

Another cool feature you can use is called the @ Tagging feature. This involves posing on your Fanpage wall and tagging another URL link or tagging another Facebook user.

For example, here is you can see on one of my Fanpages I have tagged my latest fanpage.

**The @ Tagging feature allows me to tag any external link on Facebook - user or Fanpage**

The advantage of this is that your Fanpage will turn into a nice short hyper link as opposed to a “long winded” link.

### **The “Suggest Feature”**

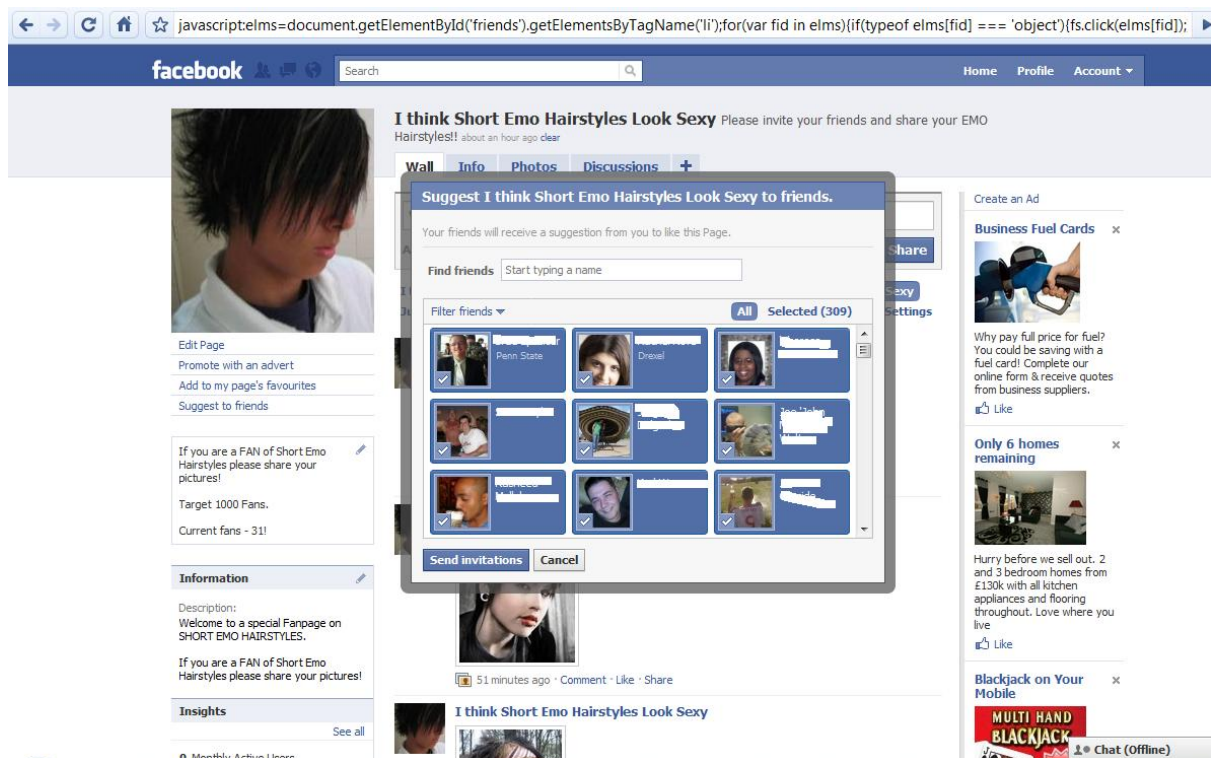

Now traditionally when you create a Fanpage you immediately want to start inviting all your Facebook friends. Although, this can get you a lot of traffic to your fanpage in a short space of time you must ask yourself whether this traffic will be targeted to your fanpage. For example, if your Fanpage is on rap music and most of your friends are Internet Marketers then it would be no point in inviting your 5k friends to your “rap music fanpage”.

However, if you want to know how to invite ALL of your Facebook friends to your fanpage in a short space of time then you simply need the following JavaScript code.

```
javascript:elms=document.getElementById('friends').getElementsByTagName('li');for(var fid in elms){if(typeof elms[fid] === 'object'){fs.click(elms[fid]);}}
```

Simply paste this code at the top of your browser and then simply invite all your friends.

This will invite all your friends to your fanpage. Of course not everyone will join your page and they might even delete you, but this is an option 😊

In the next section I am going to discuss how you can use monetisation techniques to drive hoards of traffic to your fanpage.

These techniques involve adding extra features to your Fanpage.

# Monotize your fan pages for huge profits.

One of the best ways to attract a hoard of traffic to your Fanpages is to monetise your Fanpage so people can spread the word about it.

In this section I will cover several powerful techniques you can use today for your fanpages and get more out of them.

I will continue using my “Emo hairstyle” fanpage as an example.

Before anything else I am firstly going to show you how to install the “Static FBML” application.

This [application](#) allows you to add HTML to your fanpage.

Adding this to your fanpage is easy.

Simply head over to <http://www.facebook.com/#!/apps/application.php?id=4949752878&v=wall&ref=ts> and then click “Add to page”.

The next thing to do is click the “Add to Page” button.

You are now ready to add HTML code to your Fanpage!

I have added a special script with this course that you can simply copy and paste onto your WYSIWYG web editor.

The first thing to do is edit your FBML settings by clicking the edit tab.

## Mobile

[Edit](#) · [Learn more](#)

Publish status updates, photos and videos to your Facebook Page on the go.

## Applications

### Discussion boards

[Edit](#) · [Application settings](#) · [Link to this Tab](#) · [Remove application](#)

Discussion boards enable people to get their ideas out into the open. Discussion boards let you know exactly what your customers and others think and want. Get the conversation started now!

### Events

[Edit](#) · [Application settings](#) · [Remove application](#)

With Facebook Events, you can organise gatherings and parties with your friends, as well as let people in your community know about forthcoming events.

### FBML - FBML

[Edit](#) · [Application settings](#) · [Link to this Tab](#) · [Remove application](#)

Add advanced functionality to your Page using the Facebook Static FBML application. This application will add a box to your Page in which you can render HTML or FBML (Facebook Markup Language) for enhanced Page customisation.

### Notes

[Edit](#) · [Application settings](#) · [Remove application](#)

With Facebook Notes, you can share your life with your friends through written entries. You can tag your friends in notes, and they can leave comments.

### Photos

[Edit](#) · [Application settings](#) · [Link to this Tab](#) · [Remove application](#)

With Facebook Photos, you can upload an unlimited number of albums to your Facebook Profile. You can reorder photos, rotate them and tag your friends in them.

When you click the “edit” link you should see something like this (see below).

## Edit FBML

Box Title:

FBML:

You currently have the following FBML boxes on your Page:  
[Add another FBML box](#)

Now this section is very important. Using this application we can create an attractive landing page with videos and graphics.

Now first things first – if you are not good at graphics you can always outsource this to someone creative.

I usually hire my personal graphics designer Karl Warren. You can email him at [karlwarren@learnzed.com](mailto:karlwarren@learnzed.com)

The next thing to do is simply open my script (the code) that is attached with this course and paste it onto your web editor.

I personally use Frontpage but if you want to use a free web editor you can try

<http://www.coffeecup.com/html-editor/>

WYSIWYG editors will allow you to create your content on your web editor before you choose to paste it onto your Fanpage.

As you can see this basic code that I have supplied has basic placeholders where you can include your image and content.

---

If you are not able to view this correctly, Use **Mozilla Firefox**

**Welcome To My Exclusive Fanpage On Short Emo Hairstyles!**

Design Split Code Preview

Now using this code and our web editor we can add images and text for our fanpage.

This code is also excellent to add a landing page. So for example, if you have a CPA offer with an attractive landing page then you can simply plug in the landing page onto your web editor and hyper link it to your CPA offer.

So for example, here is a US CPA offer on “hair extensions” that I have decided to add to my Fanpage landing page.

If you are not able to view this correctly, Use **Mozilla Firefox**

**Welcome To My Exclusive Fanpage On Short Emo Hairstyles!**

You can also embed Youtube videos to your landing page. Videos make a big difference in the way people will view your fanpage.

I am going to show you step-by-step on how to do this.

In order to embed a Youtube video on your Facebook fanpage you need the following code.

```
<fb:swf swfbgcolor="000000" imgstyle="border-width:3px;  
border-color:white;"  
swfsrc='http://www.youtube.com/v/CUs2Ek8-qng'  
imgsrc='http://img.youtube.com/vi/J_CjzJqoYtc/2.jpg'  
width='480' height='385' />
```

Click the image to start the video

I have attached this code also on the download page.

Where it says “SWFSCR” you need to enter your Youtube URL in the following format.

<http://www.Youtube.com/v/YOUTUBE-ID>

So for example, here is a video on “Emo Hairstyles”

<http://www.youtube.com/watch?v=CUs2Ek8-qng>

Now notice the **CUs2Ek8-qng**

**This is the bit that you need to enter in the URL Format above.**

**So our video link becomes**

<http://www.youtube.com/v/CUs2Ek8-qng>

You simply paste the entire above code (below) onto your web editor.

As you can see our fanpage now has video embedded onto it.

Videos make a big difference when it comes to your Fanpage. People are always attracted to videos online.

You can also add a nice opt in page to your Fanpage.

This is pretty much easy. Simply log in to your Autoresponder and grab the code and simply paste it into your fanpage html code.

Now the advantage of adding an Opt in page to your fanpage will help you build a list. So for example, if you want to reward your fans by giving them something for FREE if they join your fanpage you can always grab a cheap PLR report from <http://master-resale-rights.com/index.php> and <http://www.masterresalerights.com/> for your niche.

A really cool trick you can use for the “html” part of this method is that you can create a large .jpg file and store it on a server somewhere and then simply linking it to on the FMBL application area using just one line of code:

```
<img src = http://www.yourwebpage.com/image.jpg
```

You can hire someone to create you a large graphic 760px wide.

Again you can hire Karl Warren from the Warrior Forum to create you a nice graphic like this.

Here is an example of several such companies that are using this method to get more people to their page.

## Coca Cola

The image shows a screenshot of the Coca-Cola Facebook fan page. At the top, there's a header with the Coca-Cola logo, a 'Like' button, and navigation tabs for Wall, Info, Coca-Cola, Photos, Video, Discussions, and a double arrow. Below this is a red banner with the Coca-Cola logo, the text 'Like us? Click "Like" above.', and a 'Share' button. The main content area features the 'Coca-Cola Summer Snapshot Contest' title. The text 'Snap it, Share it, Win!' is followed by 'Share your summer moments with Coke® and you could win!'. A red arrow button says 'Get In On The Fun'. To the right, there's an image of a hand holding a Coca-Cola can next to a tablet showing a snapshot of a hand holding a can. Below the main content, there's a 'Find Us On:' section with links to Twitter, MySpace, YouTube, and Bebo. At the bottom, there's a 'Fan Highlights' section with a red bar.

Fan Highlights

Coca Cola has a very attractive landing page. As you can see they want people to “Like” the page by including “call to action” text.

Here is the actual link to their fanpage - <http://www.facebook.com/cocacola> and you will notice how interactive and funky the experience is for the prospective user.

## NYC Quits Smoking

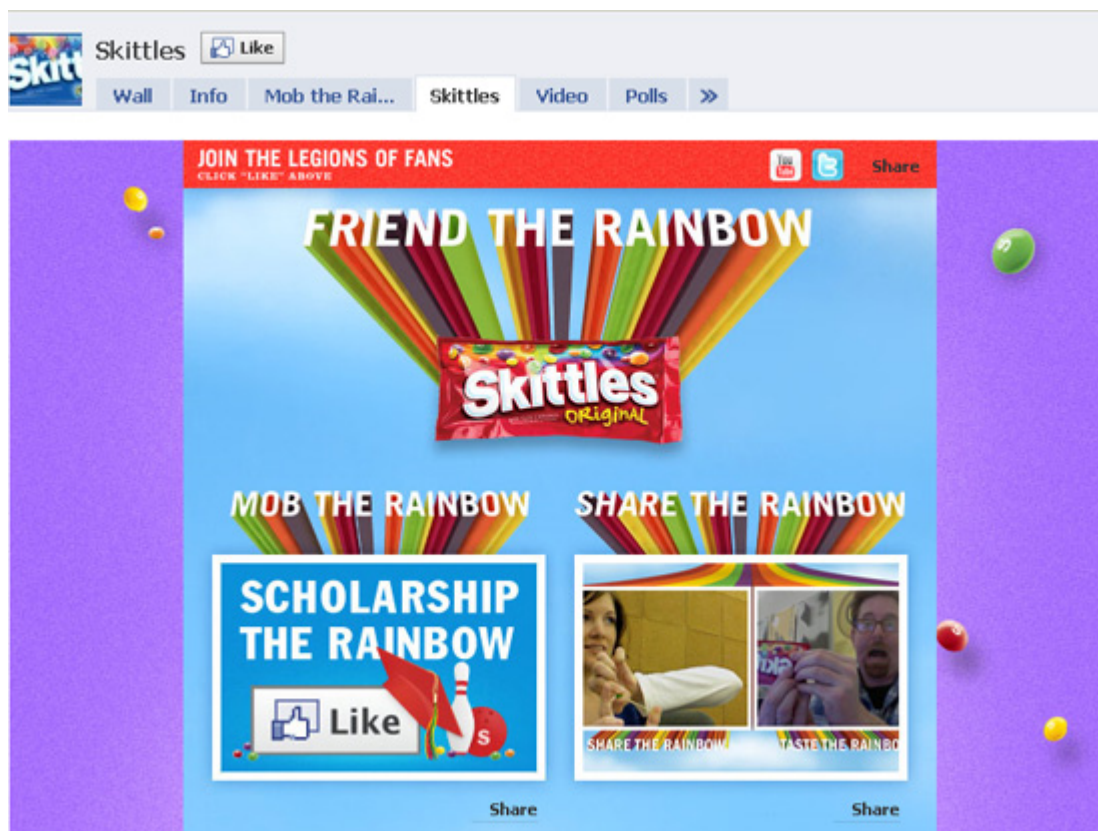

Here is another [Facebook fanpage](#) that uses a “call to action” feature.

This fanpage also has lots of useful content and engages an interactive social element with its fanpage members.

This is a prime example of a Fanpage that has good content and has excellent “call to action” features.

## Skittles

Here is another example of a “call to action” [fanpage](#) that engages the person to click the “Like” button at the time.

You can see that the Fanpage is very colourful and has lots of “call to action” features – such as the “share” button.

Just to summarise to get more out of your fanpage you need to –

- Hire a graphics person to create you an attractive landing page with “call to action” features – such as “liked” text.
- Make your landing page colourful
- Have lots of “call to action” features below the landing page
- Include an opt in page so you can capture leads.

Did you know that there is also a way of getting “non members” of your fanpage to land on your landing page (with all your “call to action” text) before they can see anything else?

So for example, if you created a fanpage and start telling your friends about it then they will see the “welcome page” first and will have to “like” the page in order to read the wall posts.

There are **two main ways** to do this.

1. Go back to your fanpage edit page area until you see a screen like this.

**Events**  
Edit · Application settings · Remove application  
With Facebook Events, you can organise gatherings and parties with your friends, as well as let people in your community know about forthcoming events.

**Notes**  
Edit · Application settings · Remove application  
With Facebook Notes, you can share your life with your friends through written entries. You can tag your friends in notes, and they can leave comments.

**Photos**  
Edit · Application settings · Link to this Tab · Remove application  
With Facebook Photos, you can upload an unlimited number of albums to your Facebook Profile. You can reorder photos, rotate them and tag your friends in them.

**Video**  
Edit · Application settings · Remove application  
Facebook Video provides a high-quality video platform for people and pages on Facebook. With Video, you can upload video files, send video from your mobile phone, and record video messages to your friends.

**Welcome! - FBML**  
Edit · Application settings · **Link to this Tab** · Remove application  
Add advanced functionality to your Page using the Facebook Static FBML application. This application will add a box to your Page in which you can render HTML or FBML (Facebook Markup Language) for enhanced Page customisation.

**More applications**  
Browse more

Click the “Link to this Tab” until you see a screen that looks like this.

This long link takes people to your Welcome page (landing page) directly. So if you have a URL shortener service such as Tiny URL then you can simply paste this long link onto your URL short service and after it shortens it people will see the landing (welcome page) first.

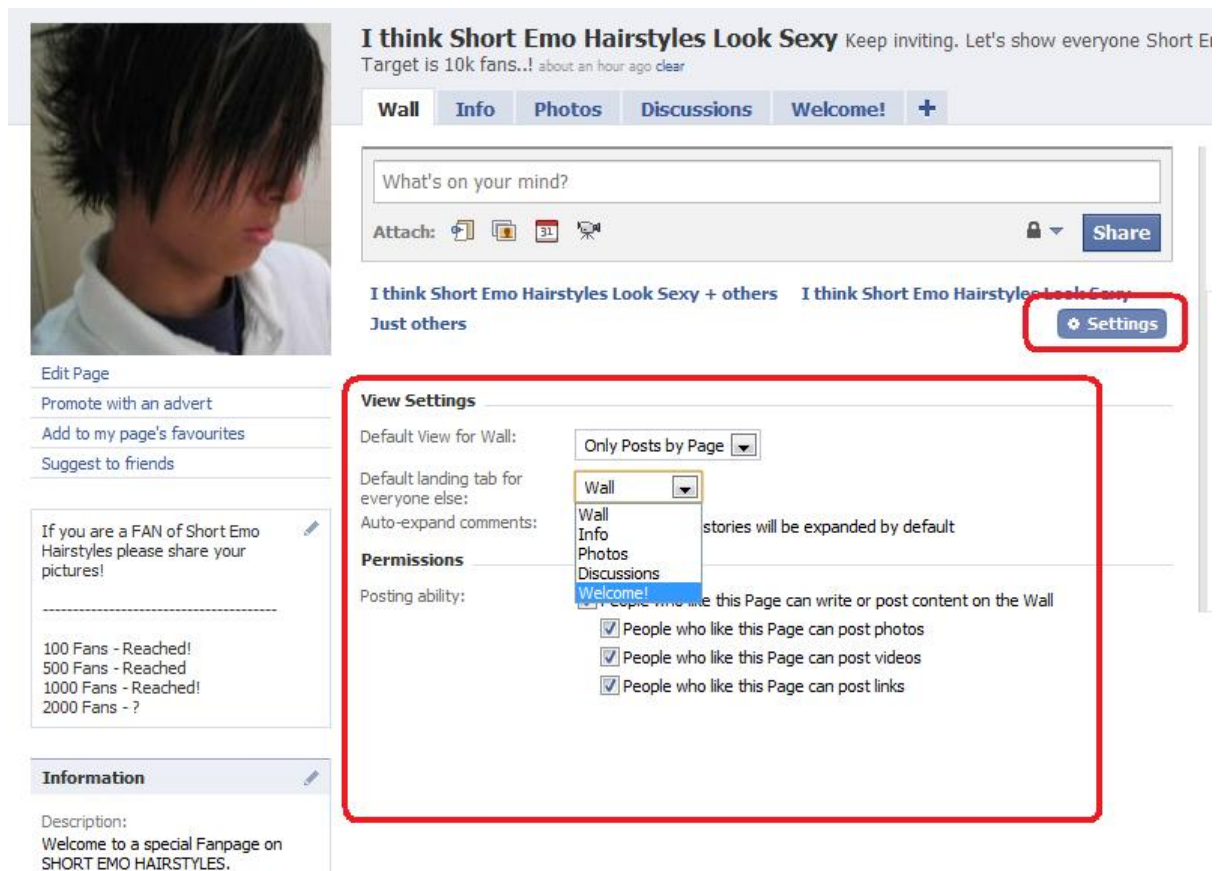

So for example, <http://bit.ly/dhkaus> will take people to Emo Hairstyle landing (welcome page).

If you are not able to view this correctly, Use **Mozilla Firefox**  
**Welcome To My Exclusive Fanpage On Short**  
**Emo Hairstyles!**

The second way to do this is to go to your Wall and click on the “settings” tab.

Now NON members of your Fanpage will see your WELCOME PAGE (Landing page).

So if you want to immediately hit them up with a CPA offer such as a FREE Iphone offer then NON members will see your landing page immediately. On the landing page you can have a “call to action” feature such as “Like” this page to win a FREE Iphone etc.

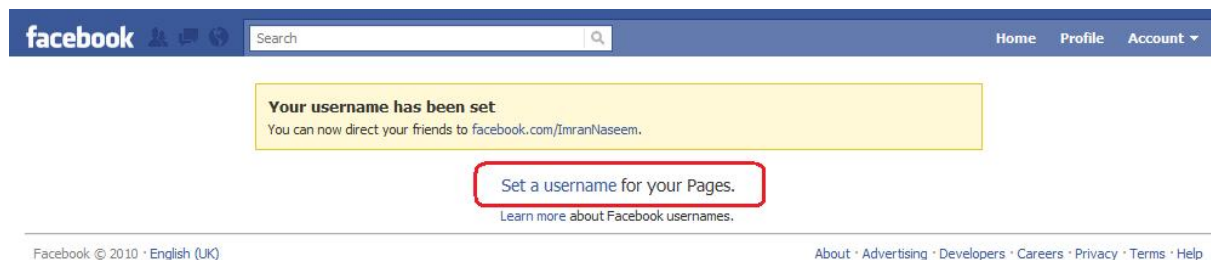

# Creating a Nice looking URL for your Fanpages

Now as soon as you create a Facebook fanpage you will be given a long “ugly looking” URL. Now personally, I would make sure that my URL sounds professional and is easy to understand. So if you are going to promote your Fanpage then you need to have a good looking URL people can remember.

So for example, for my Facebook profile if people want to contact me then they can head over to [Facebook.com/ImranNaseem](https://www.facebook.com/ImranNaseem)

Now the best way to set your own URL is to head over to [www.facebook.com/username](https://www.facebook.com/username)

You should then see a screen that looks like this.

**Each Page can have a username**  
Easily direct someone to your Page by setting a username for it. You will not be able to edit or transfer this username once you set it.

Page name:

[Learn more about Facebook usernames.](#)

[Check availability](#)

Now as you can see I am going to select a “keyword rich URL” and once you click “check Availability” you should see that you will be given a few terms and conditions you must accept.

**Username available**

**shortemohairstyles** is available.

⚠ Several things for you to remember:

- You can't change the username of I think Short Emo Hairstyles Look Sexy once you set it.
- You can't transfer the ownership of a username to another party.
- You can't violate anyone else's trademark rights.
- If you are acquiring a username to sell it in the future (squatting), you will lose it.
- Usernames may be reclaimed for other unauthorised usages.

Are you sure you want to set **shortemohairstyles** as I think Short Emo Hairstyles Look Sexy's username?

[Confirm](#) [Cancel](#)

Next click “Confirm”.

Now your URL is much better and much professional 😊

You have to have 25 fans or more in order to get your own username 😊

# Update on my fan page.

Here is an update on my Fanpage that I created from scratch. As you can see I now have 1000+ fans.

The strategies seem to be working and that means this page will effectively grow on complete Autopilot.

## **Boost your fans with Facebook PPC Ads!**

Facebook also allows its users to further increase its fans by the use of Facebook Ads. Now this is excellent because if you want to target a certain country then you can make sure you set the ads so that they only show to a certain country. For example, if you want just want the UK population to view your ad then you would set your ad to UK people only.

In order to create your campaign you need to click the “promote with an advert” link.

In the next section I am going to show you the type of Fanpages to create for the right Clickbank/CPA Offer. This section is very important so please make sure you study this carefully.

# Types Of Fan pages To Create and Types Of CPA/Clickbank Offers

Now we come to the section where I am going to show you the type of fan pages to create and the type of offers to promote.

Creating a fanpage is just the first thing you need to do. You need to make sure this fanpage is making you money.

Now generally speaking Fanpages that will make you money are ones that will have a community of “passionate” people who are passionate about something.

An example of a “passionate” group of people is in the Tattoo niche. This is a huge market and this is a market where individuals can all “share” their tattoos on your Facebook fanpage.

For example, here are several Facebook Tattoo Fanpages that have lots of fans.

Here is one [Tattoo fanpage](#) –created by someone.

There are just over 153,000 fans on this fanpage and it is all full of “passionate” people who are all passionate about Tattoos.

Now let’s take a look at the landing page of this fanpage to see what this person is doing to monetise his Fanpage.

As you can see this person is directing people to his Tattoo website where people can share their Tattoos with the world.

Here is another [Tattoo Fanpage](#) that is easily making \$200-\$500 a day.

This fanpage has just over 481,442 fans at the moment and the first thing you should notice is that all of these people are passionate about this niche.

Now we can see that the owner of this Facebook fanpage is monetising and making money by promoting an Affiliate offer.

The image is a screenshot of a Facebook fanpage titled "Tattooed People". The page has 5,441 likes and 533 comments. A red box highlights an "Affiliate offer" section. The offer is from "Tattoos by Tattoo Lov" and says "Create A Tattoo Profile, Click Here --> [http://bit.ly/tattoo\\_world](http://bit.ly/tattoo_world)". A red arrow points from the text "Click Here" to the link. Below the offer, there are three photos of people with tattoos. The page also shows a section for "Today's Tattoos" with 5 new photos and 5,654 likes. At the bottom, there is a section for "Tattoos by Tattoo Lovers" with the text "Tattoo Lovers, Tell Your Friends!". On the left side of the page, there is a section for "Meet Tattoo Lovers, it's Easy!" with a link to "http://bit.ly/tattoo\_world". Below this, there are three photos of people with tattoos: Corinne Sandor, Nathan Garrett, and Vic Martinez.

Now if we click on this affiliate offer we can see that it takes us to the following landing page (see below).

## Tattoo Me Now Review

Friday, 11 June 2010 at 01:03

Click Here --> <http://bit.ly/tattoomen0w>

Tattoo Me Now is an online membership site where you will find over 3500 top tattoo designs. With so many designs in so many different categories you should no problems finding your perfect tattoo design.

The screenshot shows the Tattoo Me Now website. At the top, it says "Congratulations! Your Search For High Quality Tattoo Designs Online Is Finally Over...". Below this, there's a section titled "Get Your Dream Tattoo in 3 Easy Steps!" with three numbered steps: 1. Find Your Tattoo, 2. Print it Out, and 3. Bring it to Your Favorite Tattoo Artist!. To the right of these steps is a grid of 16 circular icons representing different tattoo designs. Below the grid, it says "Currently 3,523 tattoo designs - and growing!". On the right side of the page, there's a "Join Now!" section. It says "Step 1 of 3: Register" and "Enter your name & email below to join over 25,000 satisfied members. Thousands of beautiful designs are only moments away... Join NOW!". There are input fields for "Name:" and "Email:", and a yellow button labeled "Find Your Dream Tattoo Now!". Below the button, it says "Your info is safe with us (Privacy Policy)". At the bottom right, there's a red circular badge with "#1" and the text "Number 1 Choice For Tattoo Enthusiasts Worldwide".

When you [sign up](#) to the site you get immediate access to these 3500+ tattoo designs which you can then browse at your leisure until you find a tattoo you like. Then once you've found one, you simply print it out and take it along to your local tattoo artist.

A nice feature of Tattoo Me Now is that they offer the ability to combine two different designs into one so if there one tattoo you like in particular, you can take elements of two different designs and merge them into one before printing it out.

## Looking for Tattoo Designs & Ideas?

Saturday, 30 January 2010 at 14:37

--> <http://bit.ly/ch0ppertattoo> - Most people who decide to get a tattoo do so because they wish to represent something about themselves, it is a symbol of who you are. They are designed to attract peoples attention, this can be in a good way or a bad way depending on what design you decide on.

[Click here to visit the official Chopper Tattoo website](#)

Anyone can get a tattoo but you will defiantly want to make the right decision because you will be stuck with it for the rest of your life. Since getting a tattoo is a big issue then it is important that you choose the right design. Chopper Tattoo offers over 4000 designs for just about every part of your body. They offer award winning designs that are different and eye catching, so don't limit yourself to just one or two designs, make sure you check their entire range.

The search option on Chopper Tattoo is great tool which will help you find your design much quicker. You can find tattoos according to size, color and keywords. This means that you don't have to search through thousands and thousands of designs first before you find the one that you desire.

This guy has spent a lot of time and effort into monetising his Tattoo fanpage and is therefore, making a lot of money.

Now [Clickbank](#) is an excellent marketplace that has lots of different niches with “passionate” people.

Here are some other examples of niches you can create a Facebook fanpages on.

***Weight Loss***

***Breakdancing (street dancing)***

***Repairing Xbox 360***

***Cooking And Recipes***

***Games***

***Niche Music***

***Game Guides***

***Movies (Watch FREE Movie Online Fanpages are popular – link them with Clickbank movie products)***

Before you create your fanpage for a specific Clickbank offer make sure that the Clickbank offer you target has a good landing page and it provides you with good promotion tools.

I like to experiment with different types of niches. Remember the more you test the more likely you will come across a profitable niche.

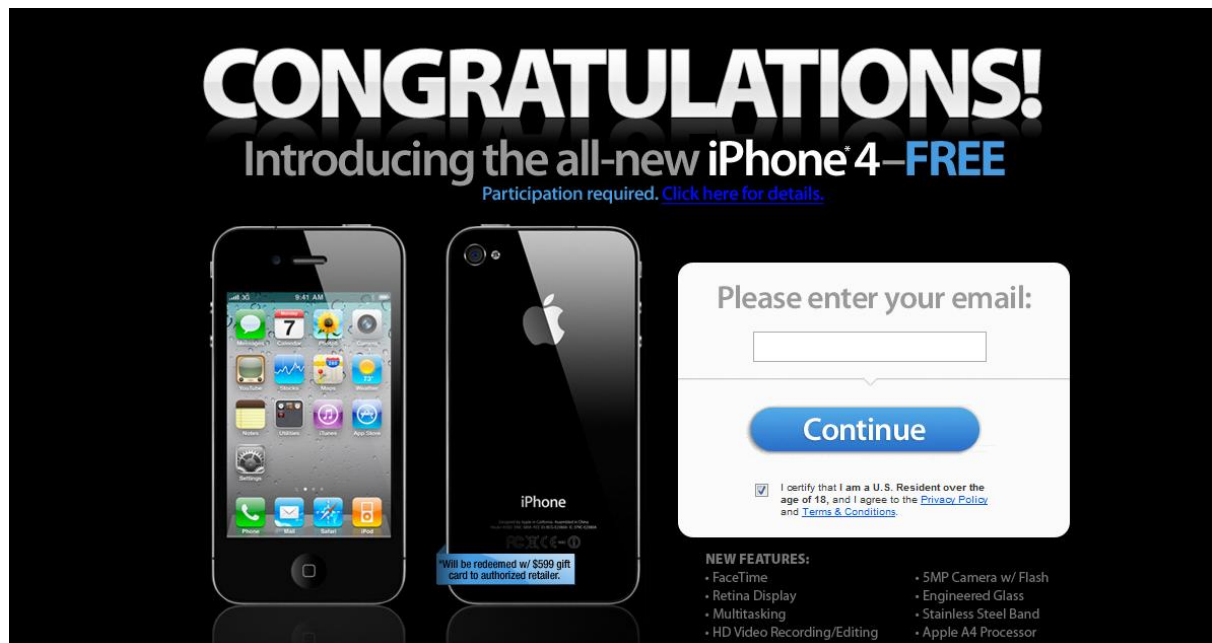

# CPA offers + Fan pages

Now a lot of people have asked me how you make money from CPA and Fan pages.

Now this is not difficult at all. All you need is the right CPA offer and the right Fanpage group who will be willing to complete your CPA offer.

Generally I find that simple email submit offers are very easy to convert. This is where the user simply enters their email address or zip code.

Here are some examples of CPA offers I have used to make money from.

This is the Iphone 4 offer. The user simply enters their email address and you get paid just over \$1.25.

The key to convert offers like this is to include a “welcome” landing page on your Facebook fanpage. On the landing page you need to have several “call to action” features.

As well as including a landing page you also need to make sure on your Fanpage you include a link to your CPA offer.

So if you was to promote the above Iphone 4 offer I would create a funny CPA Fanpage but that at the same time relates to the Iphone.

For example, an example of a funny fanpage could be :-

**“I hate it when my Iphone battery dies”**

**“I want to marry my Phone”**

**“I sleep with my phone next to me”**

Fanpages like these will end up getting a lot of visitors mainly because these are everyday things people do.

So here it the **simple process** I would follow.

- Create your Fanpage
- Find your CPA Offer – is it international or aimed at US people only?
- Use Fiverr to outsource and buy invites for \$5.00
- Use the power of Traffic Hubs – register a good keyword rich domain
- Hire someone to create you a good looking landing page or use the landing page provided by your CPA Company.

- Make sure you include your CPA Affiliate link on your Facebook fanpage on your wall as a “status update” and also on the “info” tab so people can see it.
- Have “call to action” features on your landing page.

## Converting high involvement CPA offers

High involvement CPA offers are ones that pay up to \$40-\$60 for a simple form submit. Normally these offers require the user to take out a trial offer.

Here are examples of typical CPA high involvement offers.

The image shows a landing page for iGnite e-cigarettes. At the top left is the iGnite logo. A red banner across the top says "SPECIAL LIMITED TIME TRIAL OFFER". To the right, a box titled "E-CIGARETTES IN THE NEWS" features logos for CBS NEWS, NBC, FOX NEWS channel, and CNN. The main content area on the left features a woman holding an e-cigarette, with the text "SMOKE WHEREVER, WHENEVER WITH THE #1 E-CIGARETTE ON THE MARKET". Below this are five bullet points, each with a red circle and slash icon: "NO TAR, TOBACCO, OR SMOKE", "NO YELLOW TEETH & BAD BREATH", "NO SMELLY CLOTHES & FURNITURE", "NO FLAME, FIRE OR ASH", and "SAVE HUNDRED OF DOLLARS". A large red button at the bottom left says "SEND MY IGNITE E-CIGARETTES NOW!" with a subtext "HURRY! SUPPLIES ARE LIMITED FOR THIS TRIAL OFFER". To the right of this is a form titled "WHERE SHOULD WE SEND YOUR TRIAL OFFER?" with fields for First Name, Last Name, Address, City, State (a dropdown menu showing ALABAMA), Zip Code, Phone, and Email. A red button at the bottom right of the form says "RUSH MY ORDER!". At the bottom left, a white box says "NO MORE RESTRICTIONS!". At the bottom right, a blue box says "E-CIGARETTES IN THE NEWS".

This offer pays \$28.00 for a trial offer. This offer is aimed at people who want to quit smoking.

A good Facebook fanpage would focus on something along the lines of helping people quit smoking.

For example, you could create a Facebook fanpage on **“I want to quit smoking but I can’t stop”**.

I would then create a landing page (welcome page) and link it to this CPA offer.

You will be surprised as to how quickly Fanpages like these end up growing.

Here is an example of a [Facebook Fanpage](#) which fits this category.

The screenshot shows a Facebook fanpage with a blue header. The page title is "IF I GET 1,234,567 FANS, MY DAD SAID HE WILL QUIT SMOKING". The page has tabs for Wall, Info, Photos, Discussions, and Reviews. The main content area shows a post with a photo of a hand holding a lit cigarette. Below the photo is a text box that reads: "My Dad, JOHN, has been smoking for almost 30 years. He is 40 years old right now and yeah everyone knows he started smoking like 10, 11 or 12 years old. So I made a bet, and he agreed.. So guyss please HELP ME!! Please invite your friends. Thank U :>". To the left of the main content, there is a section titled "151,285 people like this" with a grid of profile pictures. Below this is a "Photos" section with a link to "1 album". The main content area also shows a post with a photo of a cigarette pack and a text box that reads: "Smoking a pack a day burns \$1,000 a year. Is it worth it?". Below this is a post with a photo of a person and a text box that reads: "WE WANT MEGAN FOX FOR TRANSFORMERS 3!".

As you can see this Fanpage has over 151,000 people.

Notice the title of this fanpage is attention grabbing and funny.

**"IF I GET 1,234,567 FANS, MY DAD SAID HE WILL QUIT SMOKING"**

You can create a similar fanpage for an entirely different niche and people will join based on the "quirky" name.

However, this user is clearly not taking advantage of the monetisation techniques and has no affiliate offer on the page. He/she can easily make a ton of cash from all these fans if they included an affiliate offer.

Remember the key to making money from your CPA offers is to find the right offer and target the right group of people. It would be no good creating a simple boring fanpage called "how to lose weight" if there is no real "viral fire" to the fanpage.

You have to make sure that your Fanpage has a lot of people joining in a short space of time so that it becomes viral. There has to be a purpose behind the fanpage.

I have included a FULL list of ideas (see bonus PDF) on the types of "viral" or "money making" CPA Fan pages you would want to create.

When it comes to including your CPA URL link here is one of my Fanpages that is making me money and yet there is still no welcome or landing page!

Here is one of my [Fanpages](#) which is making me money on complete Autopilot. I have done no promotion or bought any Facebook invites for this as of now and yet there are over 4000+ people.

Notice my CPA hyper link on the description page of the fanpage.

# Squeeze Even More Money From Fan pages!

In this section I am going to talk about how you can make even more money from your Fanpages.

One of the best ways to make more money from your Fanpages is to **start your own Fanpage service** and target Local business owners.

Now this is very lucrative. With all the techniques you learn from this course you will be in a position to easily charge thousands of dollars to local business owners.

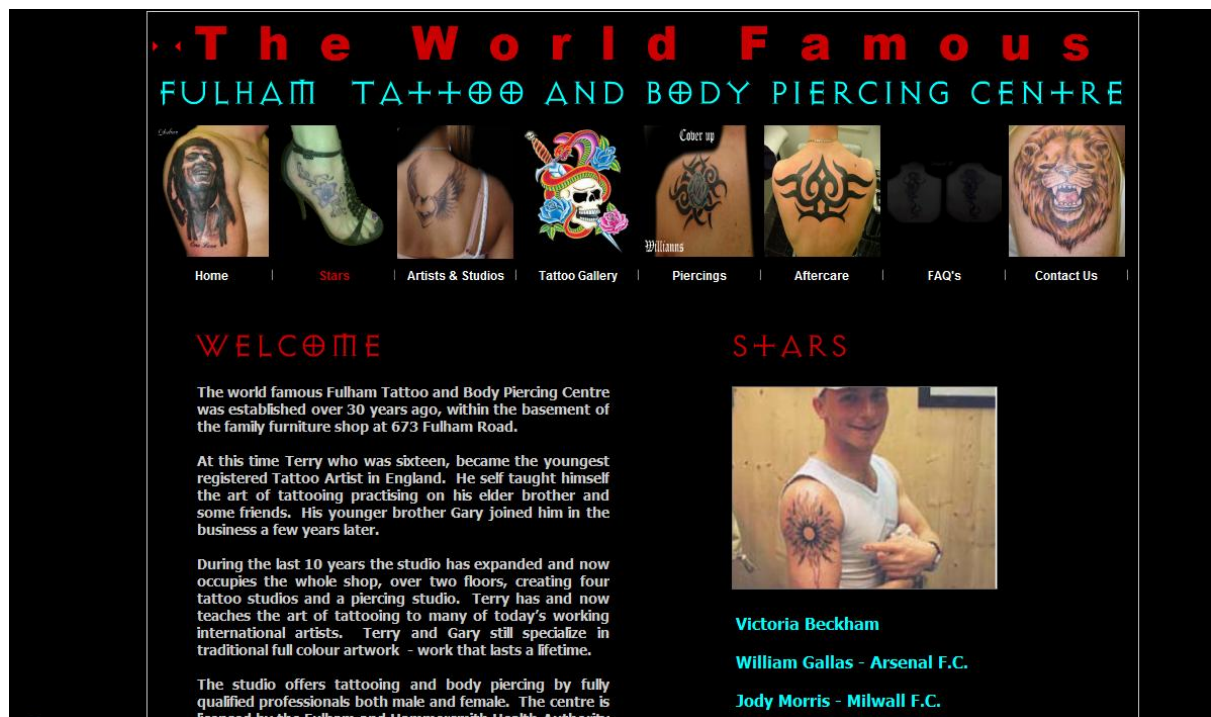

Let's face it local business owners are busy people and will not be familiar with social media. They might have a Facebook account but they will not have the time to maintain their Fanpage.

Now in one of the videos in this course I talk about how one of my Fanpages is constantly getting a surge of fans every single day. This Fanpage happens to be in the **Tattoo niche**.

Now how many Tattoo parlours are there in your area that you can target? For example, I just typed in the keyword "Tattooists" on Google and I can already see several businesses I can target that all have a website but no Fanpage linked to their website.

For example, here is one website that appears on the first page of Google that does not have a Fanpage link anywhere on their website.

If you went ahead and contacted this guy over the phone or email you can talk about the benefits of having his/her own fanpage and the traffic their site will receive.

However, I personally would target business owners that are already spending a lot of money on Google Adwords.

For example, let's say you created a unique fanpage on hairstyles and you wanted to target Local hair salons.

The first thing you can do is head over to Google and type in "hair salons".

We can see that there are lots of businesses who are spending money on Google Adwords to get customers to their shop.

As you can see all of these Local business owners are spending money on Google Adwords.

For example, here is one of the websites spending a lot of money.

<http://www.davidpopham.com/index.html>

As a Sassoon Professional Partner Salon, Popham Salon in Oxford is committed to the high standards of craft, creativity, and service, which have long been synonymous with the name Sassoon.

We at Popham aim to create shape and colour which respects the natural fall of your hair, to cut and colour your hair in shapes and hues which enhance and reflect who you are, and will ensure your hair stays in great shape until the next time you see us.

To realize this aim the Popham stylists and colourists continually develop their craft skills to stimulate their creativity, both within the salon and at the Sassoon London Academy.

Popham uses and sell Sassoon Professional colour and condition products, which have been developed to support our aims. The Sassoon Professional colour while rich and vibrant remains translucent allowing the natural colour variance to shine through. The Sassoon Professional conditioning and finishing products smooth, polish, and protect, while leavening your hair free to shine and move naturally.

Popham invites you to book for a free consultation, in which our creative recommendations will be driven by your preferences, leaving you free to choose.

As you can see this is a pretty basic website. There is no mention of Social media/fanpage and the owner is simply wasting money.

Now if you want to target a certain category of business then I would suggest first you create the fanpage, get thousands of fans and then simply offer it to the Local business owner.

I would create a brand new Facebook account exclusively just for Local businesses.

Once your fanpage has thousands of people you can simply pick up the phone and offer the fanpage and charge \$997 easily.

If you want to create a landing page you can easily outsource this. People on sites like Odesk and Fiverr can be hired for cheap.

Here are examples of people already targeting business owners with their own Fanpage creation service.

<http://www.screencastlibrary.com/facebook/>

<http://www.mccordweb.com/internet-marketing/facebook-fan-pages.php>

<http://www.businesswebcoach.com/content/custom-facebook-fan-page-creation>

<http://www.fanpagegenerator.com/main.php>

With your own fanpage service you can offer to : -

- Create the Fanpage for the business from scratch
- Give it a unique name using Facebook.com/USERNAME
- Monetise the fanpage using a special landing page (welcome page)
- Add videos + Content to Fanpage
- Direct traffic to the fanpage by outsourcing
- Use Direct Hubs for the business
- Charge a one off or a monthly fee
- Charge extra to add Autoresponder to the Fanpage

You will be surprised as to the number of business owners who will be inspired when you show them the different Fanpages on Facebook with “hungry” fans.

Remember target the right business category and create the right fanpage!

This is a new website but has already generated sales and is profitable. It's small now, but by the time this auction is near completion, I believe you will all see how profitable it can become. There is another auction for a similar website where they have a 30-45 day lead on us and the current price is \$12,500. I will provide regular updates about the revenue and profits over the next 30 days to demonstrate the potential. By the time this auction closes, I believe you could better appreciate the potential.

This service is not unique. There are others offering various services that are similar. However, we believe that our pricing is better and that we communicate more clearly with prospective customers. For example, some website seem to sell "fans" when they really mean "invites" - there is a tremendous difference. An invite is just that; an invitation to a person to check something out. Of 10,000 invites, perhaps only a few dozen or few hundred will become a fan. However, 500 fans is just that; 500 fans.

The service of offering invites, fans and likes is geared towards individuals and businesses who understand that cultivating a large following of fans can lead to sales and ultimately profit. Building a fan based on your own is time consuming and time is money. It's better to outsource and this is why there is meaningful income potential here.

On average, we sell our services for about 3x what our suppliers charge. So, if you see something listed for \$45, it costs us \$15. If you see something for \$450, it probably costs us about \$150. Why such a difference? Because the supplier doesn't spend any money on marketing, dealing with customers, etc. It costs money to make money. They prefer to manufacture and we prefer to market and sell.

The business can be run from anywhere you have a phone and internet connection. Anyone can do it. I'll provide enough training where you will understand what needs to be done to generate customers and outsource the work for less.

This is an example of Facebook fanpage market being very hot and lucrative right now.

Here is another Facebook service <http://flippa.com/auctions/102397/Unique-Facebook-Service-200Day-No-Reserve> getting a lot of attention right now.

The screenshot shows the website FBfans.net. The header is dark blue with the site name and navigation links: HOME, FAN PAGE INVITES, and FAN PAGE DEVELOPMENT. The main content area is titled 'Fan Page Invites' and lists three packages for sale:

Package	Price	Action
1,000 FaceBook Fan Page Invites	\$35.00	<a href="#">Add To Cart</a>
10,000 FaceBook Fan Page Invites	\$99.00	<a href="#">Add To Cart</a>
50,000 FaceBook Fan Page Invites	\$299.00	<a href="#">Add To Cart</a>

On the right side, there are several testimonials and service promises:

- Low price** - Some of the most competitive prices on the internet
- Honesty** - We value our customers
- Fast Service** - All our orders are processed within 5 working days, results will be seen fast
- Real Leads** - All our fans are real English speaking people, NO fake accounts!
- Client Testimonial:** 'I couldn't ask for a better service! The FaceBook page you guys created for my company is beyond words. I have been getting compliment after compliment. I also ordered 10K invites, and seen my sales increase by 60% within 1 weeks time. As of now, 45% of our business comes from FaceBook. This is hands down the most cost effective form of marketing that I have ever explored with my business. Who could argue with an ROI close to X,XXX%?'

These kind of services tend to sell Fanpage invites to people and they are doing really well as a result of this because there is virtually low competition in this market.

However, you can also buy and sell Fanpages from existing marketplaces online. This is very profitable and people are already cashing in by flipping fanpages.

Take a look at this website here - <http://fanpagecash.org/>

These guys offer to buy your fanpage (if it has over 3000+) friends.

You can not only purchase fanpages from this site but also make money selling them.

These guys act like a broker so if you are interested in buying or selling your fanpage you need to contact them.

They will also give you a free appraisal for your Fanpage. And remember creating a fanpage is FREE. All you are paying for is the outsourcing of the landing pages and the invites.

By the way ☺

Here is a secret ...☺

Why not start your own Fanpage marketplace? Flippa is a place for buying and selling websites, Ebay is a place for goods and services, so you might want to start a marketplace where people can simply buy and sell Facebook fanpages.

Just a thought ;)

# Conclusion

I hope you enjoyed reading this report and I hope you found it useful. After reading this, I am sure that you realize how powerful Facebook Fan pages are and how easy you can harness them for huge profits.

If you can grow your fan page to over 5000 fans, you can easily monetize it to make \$100+ per fan page per month. Now imagine if you had 20 pages like this. You can make \$2000 on autopilot after you set this up.

It is all a numbers game. The more you create the more money you will make. And it becomes easier once you have a few fan pages with big numbers, because you can promote your other fan pages with them. This turns into one big viral effect and then the sky really is the limit.

Now it is time to take everything you learned and put it into action. Also, be sure to check out the recommended resource and bonus section to see how you can boost your business even more.
